

# STOXX<sup>®</sup> Semiconductor 30 Index Futures

## SEAMLESS ACCESS TO SEMICONDUCTOR SECTOR

Due to the strong demand from Asian clients, Eurex launched the Futures on the STOXX<sup>®</sup> Semiconductor 30 index, giving market participants more opportunities to invest in the semiconductor industry sector.

The index tracks the top 30 semiconductor companies, providing market participants with exposure to the industry as determined by the ICB subsectors. These companies include the renowned chip manufacturers from the U.S. and Taiwan, such as NVIDIA, AMD, TSMC, and UMC.

## TRUSTED STOXX<sup>®</sup> UNDERLYING INDEX

STOXX<sup>®</sup> Ltd. is a global index provider, covering the world markets across all asset classes and developing, maintaining, distributing, and marketing a comprehensive global family of strictly rules-based and transparent indexes. The well-known blue-chip indexes developed by the provider include EURO STOXX 50<sup>®</sup>, STOXX<sup>®</sup> Europe 600, and STOXX<sup>®</sup> Europe 50.

## LIQUID ORDERBOOK ACROSS DIFFERENT TIME ZONES

The STOXX<sup>®</sup> Semiconductor 30 Index Futures are available for trading and clearing in all time zones. Accessing liquidity pools in all time zones helps connect global and regional investors and create more trading and hedging opportunities.

## Key benefits

### Small contract size

A cost-efficient way to access the top semiconductor firms

### Pair-trading opportunities

High correlation to other semiconductor indexes which creates more trading opportunities for market participants.

### Exchange-traded benefits

Major trading, clearing and risk management functionalities at the exchange help to reduce counterparty risks and increase margin efficiencies.

### USD denominated product

Low cross-currency transaction risks
