

Eurex Circular 080/18

Announcement of T7 Release 7.1

Summary

T7 Release 7.1 is planned to be launched on **27 May 2019**.

Deutsche Börse AG will provide a dedicated release simulation environment in order to give Trading Participants the opportunity to perform comprehensive testing of their trading applications, independently of the T7 production environment. Details for the Simulation and the T7 Cloud Simulation will be published in November 2018 together with the announcement of T7 Release 8.0.

Eurex is committed to providing Participants and ISVs with information updates throughout the development of T7 Release 7.1 in order to support adequate planning and to ensure a successful launch.

Implementation and communication schedule

The production launch of T7 Release 7.1 is planned for 27 May 2019.

Deutsche Börse AG will provide a dedicated release simulation environment in order to give Trading Participants the opportunity to perform comprehensive testing of their trading applications, independently of the T7 production environment. Details for the Simulation and the T7 Cloud Simulation will be published in November together with the Announcement of T7 Release 8.0.

Eurex is committed to providing Participants and ISVs with information updates throughout the development of T7 Release 7.1 in order to support adequate planning and to ensure a successful launch.

In December 2018, Eurex will publish the detailed preliminary release notes listing the functional and technical enhancements that will be available in T7 Release 7.1.

The following existing documents will be revised for T7 Release 7.1:

- Preliminary versions (identified by ◆) will be published in December 2018/March 2019,
- simulation versions (identified by ■) will be published in April 2019, and
- final versions (identified by ●) will be published in April/May 2019 prior to the production launch
